

## Independent Study in Engineering Systems

Individual research: generally either study, fieldwork, or practicum. Designed to expose student to expert-level material in his/her research domain or context. Supervised by a member of MIT's teaching staff. Preference to ESD doctoral students with permission of instructor, advisor, and ESD Academic Office.

Students should pre-register and register for the subject, as usual, and then submit this form with instructor and advisor signatures to ESD's Academic Office (E40-249) by the first Friday of the term.

Student Name:			
Subject Number:	<input type="checkbox"/> ESD.911 <input type="checkbox"/> ESD.912 <input type="checkbox"/> ESD.913 <b>Note:</b> Students will only be able to receive credit for independent studies in ESD three times – once for each subject number listed above. Do not repeat subject numbers for different independent studies.		
Start Date:		End Date:	
Approx. Total Hours:	_____ / 13 = _____ units		
<b>Subject Description:</b> <i>A short but substantive description of the work the student will be undertaking.</i>			
<b>Grading Criteria:</b> <i>What defines the successful completion of this independent study subject.</i>
